

About Us

We have over fifty years of combined experience working with federal, state and local law enforcement agencies.

Our forensic examiners are seasoned veterans in the field of digital forensics and law enforcement, who understand it all starts at the beginning with the collection of evidence, thus, ensuring the integrity and admissibility of evidence, as well as judicial scrutiny.

NuVida Data Forensics provides digital forensics consultation, in depth forensic analysis, expert witness testimony, and litigation support services to attorneys, corporations, individuals, private investigators, and small businesses for civil and criminal litigations. Additionally, we are one of only a few digital forensic companies who offer On-Line Review services to our clients. Our On-Line Review puts the client in control because who knows better than the client as to what is important? NuVida Data Forensics will work with each client to determine what best fits their needs and budget. Our team of experts is always ready and able to assist each client with their forensic investigative process; from start to finish.

Because of the volatile nature of working with data, it is important that our team of experts be prepared, with short notice including, but not limited to, the initial consultation utilizing our experience and knowledge to create a plan of action and preparation, as well having the proper equipment to get the job done. For this reason; the services offered by NuVida Data Forensics encompasses various specialties in order to meet the client's needs, whether it's computers, PDAs/Cell phones, server data capture, network intrusion, audio, video, data recovery, investigative analysis and/or review.

From the collection of a single thumb drive; to global networking; no job is too small or too big. Our goal is to provide personal service - even after the case is completed.

No job is too small for
NuVida Data Forensics

Need computer data to be recovered, analyzed or decrypted Call NuVida Data Forensics Today! (888) 683-3703 (888) NVDF-703

NuVida Data Forensics' mission is to provide quality digital forensics analysis and data recovery services to legal and corporate communities. Our priority is to always provide personal service to each and every client with integrity and confidentiality, recognizing this is the cornerstone to any successful business relationship. Our skilled examiners will work closely with each client to create a tactical approach on resolving the challenges throughout the entire investigative process. Upon completion, our goal is to continue and maintain a personal, professional relationship, with each and every client, by offering our continued support and services and, more importantly, to always remember this is, "Where data comes to life!"

Corporate Forensics Services

Intellectual property or proprietary data is very valuable assets that we must protect especially from departing employees. Are you aware of information your current employees or future clients have posted on the Internet or who they associate with? We at NuVida Data Forensics have the resources to provide you with these answers.

- Corporate Litigation Prevention Package
- Data Recovery / E-Discovery
- Litigation Support / Consulting
- Web and Internet Abuse Analysis
- Internet Intelligence
- Incident Response
- Online Case Review

Forensics Services

Do you need to recover your deleted important files, family pictures or open protected files? Has your computer been breach, hacked or compromised? NuVida Data Forensics can help.

- Audio/Video Forensics
- Cell Phone Forensics
- Digital Forensics
- Expert Witness Service
- Network Forensics
- Password Recovery
- Training

Internet Monitoring

The Internet is one place that parents need to be aware of where their children are going and who they talk to. Children's safety is not on the streets anymore. Pedophiles can target your children from your own home.

- Internet Analysis
- Social Network Analysis

Internet Infidelity

Has your relationship with your partner/spouse/significant other changed lately? Are they always texting on their cell phone or on the computer? Do you suspect your partner of having an affair? NuVida Data Forensics can help answer your questions.

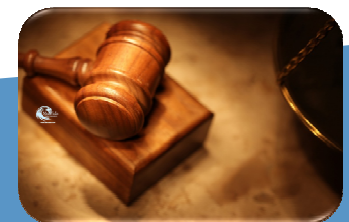

- Internet Infidelity
- Infidelity DNA Testing
- Discreet Infidelity Investigations
- Voice Stress Analysis

Investigations

NuVida Data Forensics' experts have the experience and knowledge needed to delve into the forensic sea of 1s and 0s in order to interpret complex digital information and convert to a searchable and usable format used to obtain the desired results.

- Bankruptcy
- Child Custody / Divorce
- Counterfeit / Credit Card Fraud
- Employment Disputes
- Healthcare / Medical / Insurance Fraud
- Identity Theft / Theft by Deception
- Theft of Intellectual Property
- Cyber Crimes
